MOTORENÖL® WOLVER

Wolver Turbo Marine 40

VERPACKUNG

208 L | 60 L | 20 L

WOLVER Turbo Marine 40 is based on high-grade mineral oil raffinates and selected additives to ensure wear and corrosion protection as well as good engine cleanliness of diesel engines in rail vehicles, shipping and stationary aggregates.

SPECIFICATIONS
SAE 40
API CF

MEETS THE REQUIREMENTS OF
MTU Ölkategorie 1
MB 227.0

APPLICATION

- Highly suitable for diesel engines of rail vehicles. Successful practical tests over several years and outstanding experiences in locomotives of various construction types.
- Can be applied for the lubrication of plunger piston diesel engines and for the cylinder lubrication of crosshead diesel engines for shipping when operated with diesel fuel and marine diesel fuel.

CHARACTERISTICS

- Excellent wear and corrosion protection
- Good cleaning capacity
- Very good thermal-oxidative resistance

ADVANTAGES AND BENEFITS

- Long engine lifetimes
- Good piston cleanliness
- Long oil lifetimes
